Experience

UX Designer at Netskope (3 months)

Mar 2018 to present / Los Gatos, CA

I work as a generalist UX designer, do user research, wireframing, high-fidelity mockups, present designs, gather feedback and perform iterations. I work closely with product managers, frontend and backend engineers, sales, and other designers to build new features and improvements.

UX Designer at Unscrambl (2years, 3 months)

Dec 2015 to Mar 2018 / San Jose, CA (remote)

Was the only UX Designer, and designed all aspects of our enterprise marketing automation product. Did user research, explored design direction, put together information architecture, built wireframes, interaction flows and prototypes, presented concepts and gathered feedback, and built our product's visual design system from scratch.

UX Designer at WorldPay (4 months)

Aug to Nov 2015 / Atlanta, GA

I researched and redesigned all aspects of onboarding new merchants as customers of WorldPay.

UX Designer Intern at Apple

May to July 2014 / Cupertino, CA (3 months)

I redesigned an internally used web application used for monitoring application performance.

Graduate Research Assistant at Georgia

Institute of Technology (1 year, 8 months)

Aug 2013 to May 2014, Aug 2014 to May 2015 / Atlanta, GA

I conducted user research to discover how to best provide transit arrivals information to riders, and used the results to redesign an open source mobile transit information app over several iterations.

Co-founder at Mastmenu.com

Mar 2011 to Jun 2012 / Bangalore, India (11 months)

I designed the customer facing website for our online food ordering service, its backend interfaces, and scripts to enable pleasing interactions at all customer touchpoints.

Developer, UX Designer at Goldman Sachs

Jun 2010 to Jun 2013 / Bangalore, India (3 years)

Worked as a software developer, and gradually transitioned into being a UX designer as I realized my passion for driving superior experiences for my users.
